Draw It, Then Build It: Plan Sheet

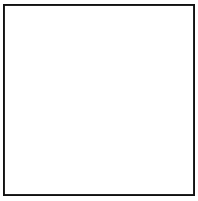

These two outlines are the front wall and one roof panel of our free Classic Gingerbread House Template, printed at their real size. Draw your decorations inside them, then copy the design onto the baked pieces. Print at 100 percent or Actual size; the square below should measure exactly 1 inch.

Front wall, 2.8 in wide. Cut 2.

Roof panel, 3.4 by 2 in. Cut 2.

Check square: 1 inch by 1 inch. If it is smaller, your printer shrank the page, and the plan will not match the template.

Candy in your drawing that sits on the wall goes on the front wall piece. Candy on the roof goes on the roof panels, which are rectangles, not the triangle you drew: the triangle in a front-view drawing is the top of the wall, and the roof panels lean back from it.
