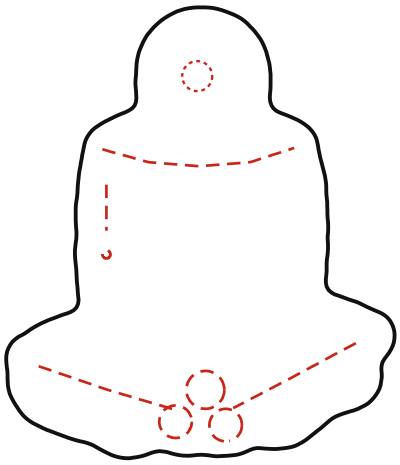
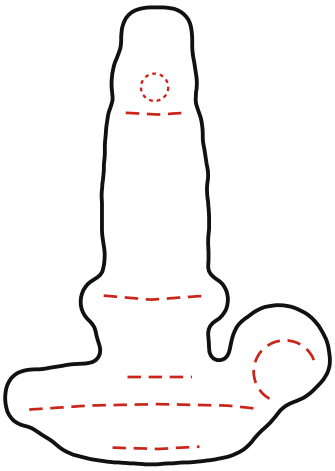
Christmas Candle Cookie Template: 7 Shapes

Print at Actual Size or 100 percent and measure the red bar: it must be exactly 1 inch. Cut on the solid lines.



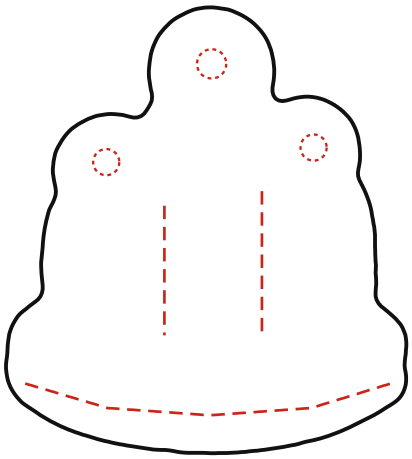
Pillar with holly

Red pillar, holly at the base



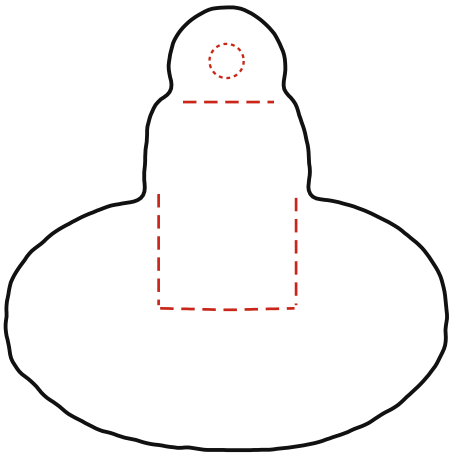
Taper in a chamberstick

Cream taper, gold chamberstick



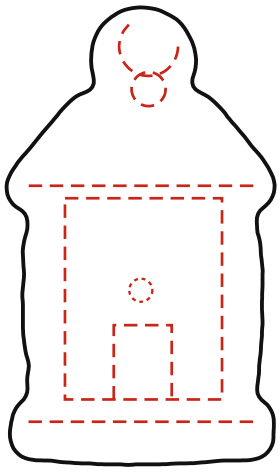
Candle trio

Red, white and green on a slice



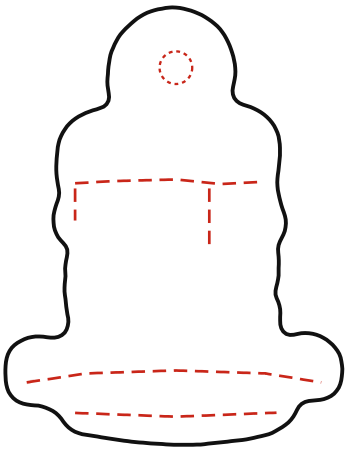
Candle in an evergreen ring

White candle, evergreen ring



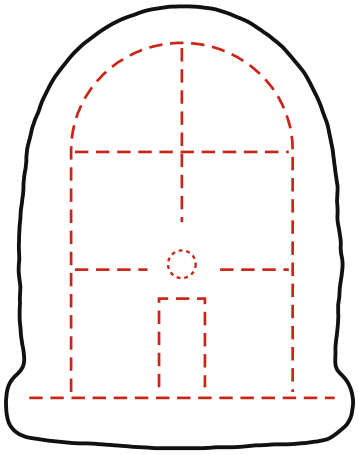
Candle lantern

Black lantern, candle on the glass



Dripping candle

Melted white wax, gold saucer



Window candle

Candle and snow on the sill

Guide key

- Red dashes are piping guides, never cut lines
- Dotted circle: the flame, piped inside each round glow
- Every glow is cut with its candle: never cut a flame out
- Pillar: rim, veins, berries. Taper: cup, dish, ring handle
- Trio: seams, slice front. Ring candle: candle edges
- Lantern: glass, candle, knob, ring. Drip: wax line, saucer
- Window: panes, bars, candle, sill line

Cut the long sides first, then the glows, the taper cap and the lantern tab last.

1 inch test bar

Roll the dough an even 1/4 inch thick. Cut round the paper with a small paring knife held straight up. Every glow, the taper and the lantern tab are wider than the dough is thick, so nothing snaps in the oven.
