Gingerbread House Stencils

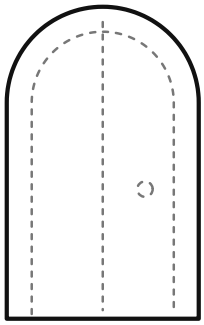

Actual size stencils for doors, windows and decorations. Print the sheet, cut each shape out of cardstock, lay it on rolled dough and cut around it with a small sharp knife.

Paper: US Letter · **Print at Actual Size, not Fit to Page** · Doors and windows are sized for house walls about 3 to 4 inches wide, like the house templates on bestgingerbreadhouses.com

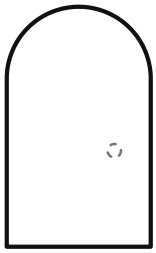

DOORS, SHUTTERS, TREE AND WREATH

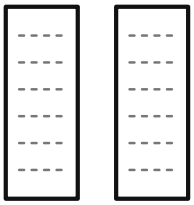

Plain door
1 by 1 5/8 in

4 pane window
1 by 1 in

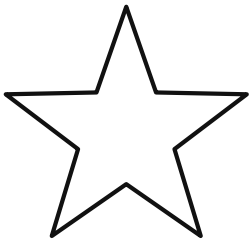

Arched window
3/4 by 1 in

Round window
7/8 in across

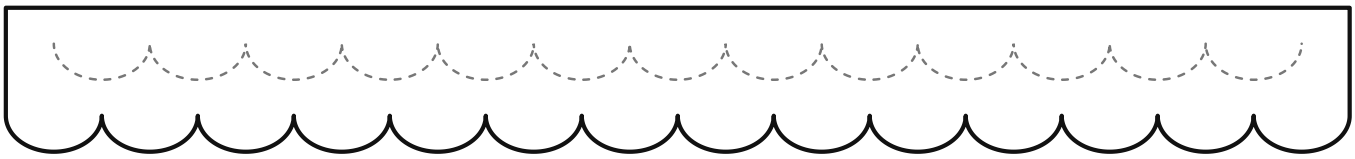

Heart
1 1/4 by 1 1/8 in

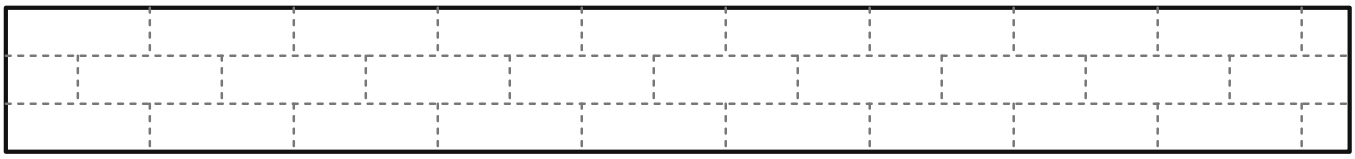

Star
1 1/4 by 1 1/4 in

PIPING GUIDES

Roof shingle guide. 7 in strip, scallops 1/2 in wide, rows 3/8 in apart

Brick guide. 7 in strip, bricks 3/4 by 1/4 in

1 inch. Check this measures 1 inch.
If it is not 1 inch, reprint at Actual Size.

solid line: cut the stencil out
dotted line: piping guide, do not cut

Tips. Dust each stencil with flour so it lifts off the dough cleanly. Cut window and door openings before baking. For the shingle guide, trace its wavy edge with a toothpick, slide it up one row and over half a scallop, and trace again. Lay the brick guide beside a wall to space your lines, or slide either guide under parchment paper to practice piping.
