# Gingerbread Pub Template: page 1 of 3

20 baked pieces over 3 pages. Check the red bar on every page first.

## What is on each page

**Page 1** Two bay windows (2 fronts, 4 sides), 2 window boxes, sign arm, brace and board, chalkboard (2 panels)

**Page 2** Front wall (centre door, two bay openings) and back wall (two windows): 5 x 2.6 in each

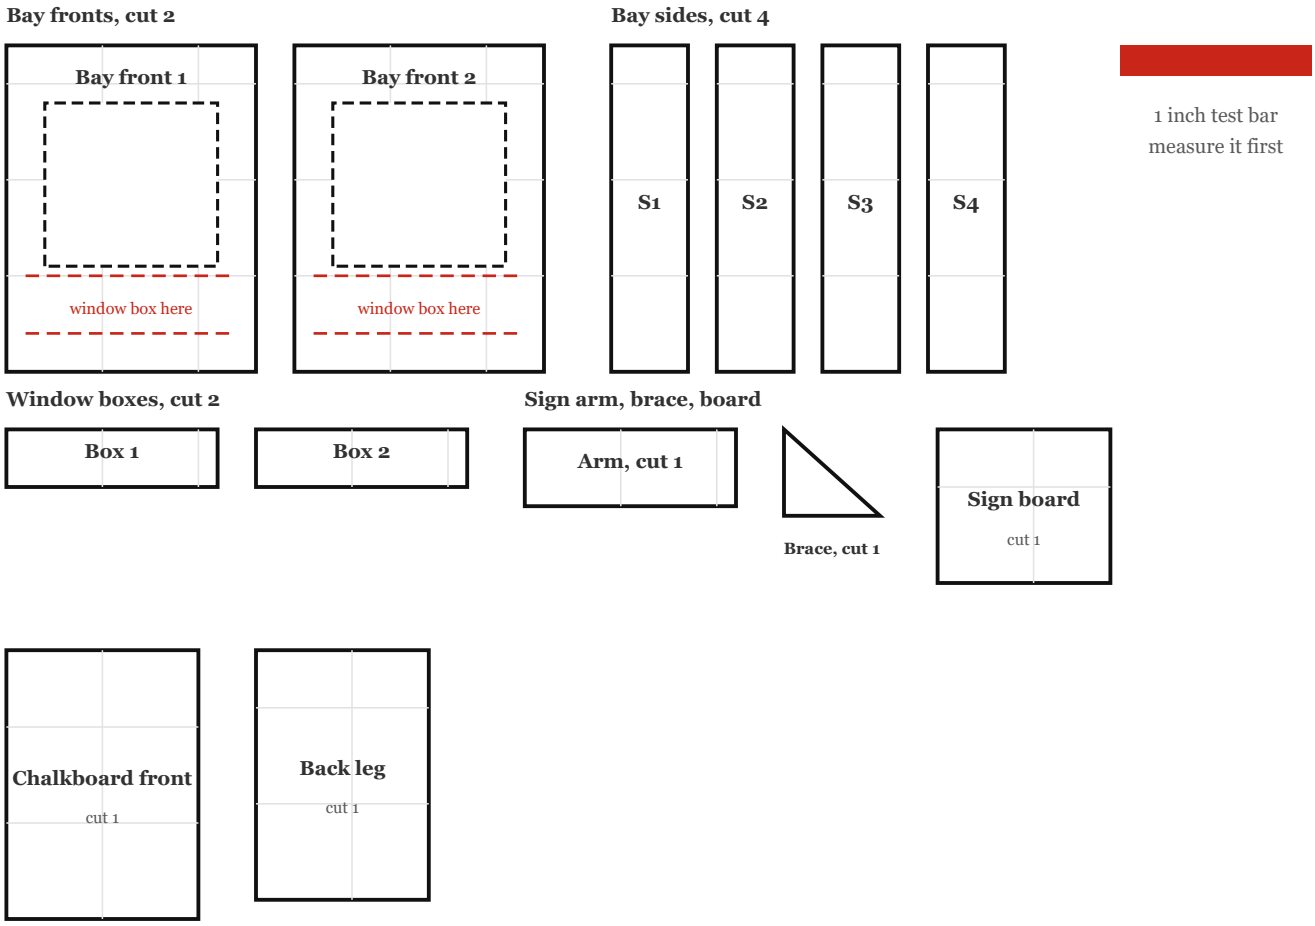
**Page 3** Gable end walls, cut 2: 2.3 wide, 3.6500000000000004 in to the peak, and the two roof panels 5.6 x 2.3 in

## Finished pub

About 5 in long, 2 3/4 in deep, 2 5/8 in to the eave and about 3 3/4 in to the ridge.

About 78 square inches of dough: one batch, rolled 1/4 inch thick, with room to spare.

Use a board at least 10 x 8 in so the chalkboard and a pretzel bench fit in front.



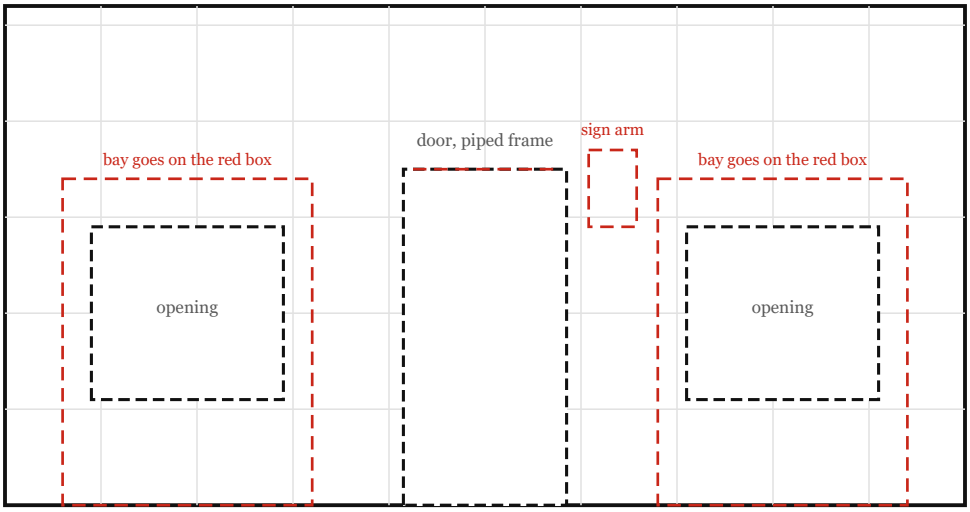
The bay is a small box: glue a side panel against the wall at each end of the red box, then the bay front across them. The window boxes go across the bay fronts on the red lines. The arm sticks straight out of the wall beside the door, braced underneath, with the sign board glued to its side so it hangs. The chalkboard panels glue along the top edge as a small A.

Solid line: cut. Dashed black shape: cut out before baking (bake the door piece and glue it back).
Red dashes: guide only, do not cut. Brown dashes on the roof: candy tile rows, 1/3 inch apart.
Print at Actual Size or 100 percent, never Fit to Page. bestgingerbreadhouses.com

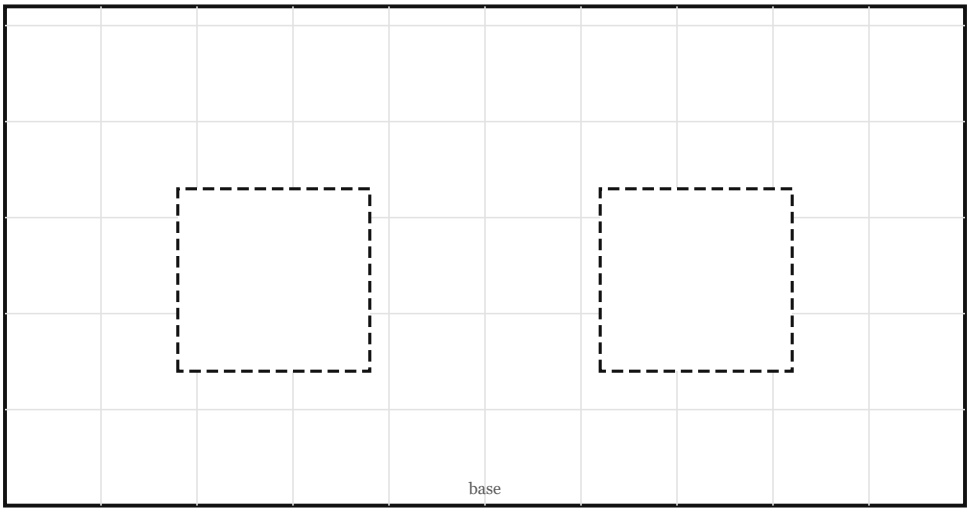
# Gingerbread Pub Template: page 2 of 3

Front wall and back wall. Cut the dashed openings out before baking.

### Front wall, outside face



### Back wall, outside face



1 inch test bar
measure it first

Cut on the parchment and slide the paper onto the pan. Bake the door cut-out beside the wall and glue it back in later. Pipe the white frames and the door frame flat before standing the walls up.

Solid line: cut. Dashed black shape: cut out before baking (bake the door piece and glue it back).
Red dashes: guide only, do not cut. Brown dashes on the roof: candy tile rows, 1/3 inch apart.
