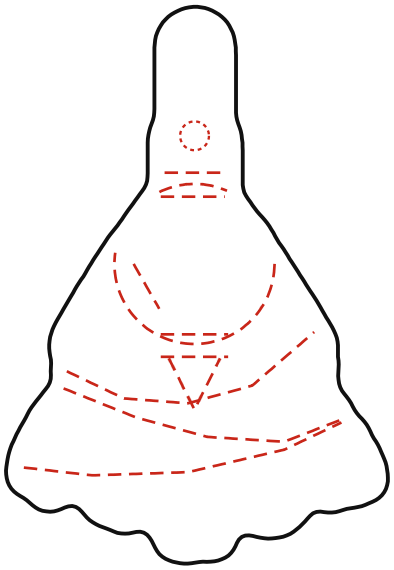
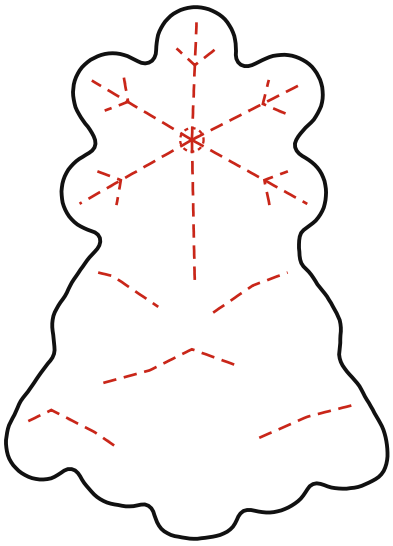
Tree Topper Cookie Template: 7 Outlines, 7 Designs

Print at Actual Size or 100 percent and measure the red bar: it must be exactly 1 inch. Cut on the solid lines.



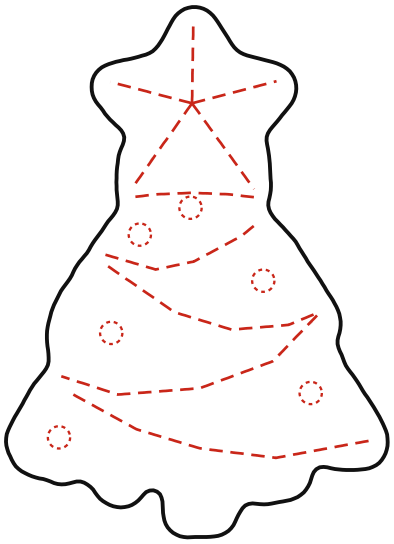
Glass finial treetop

Glass ball and spire



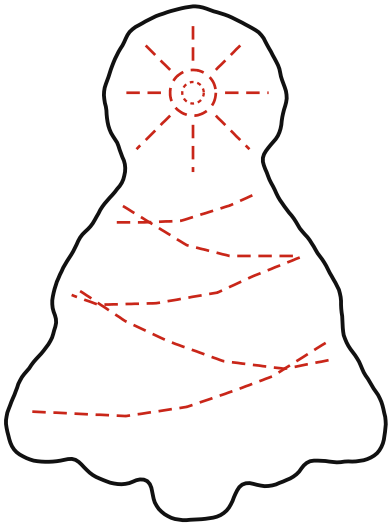
Snowflake treetop

Icy snowflake, snowy boughs



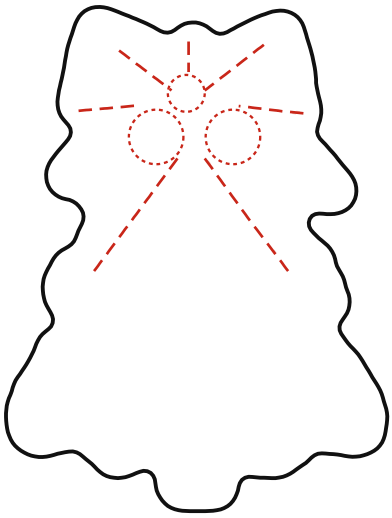
Gold star treetop

Gold star, red garland



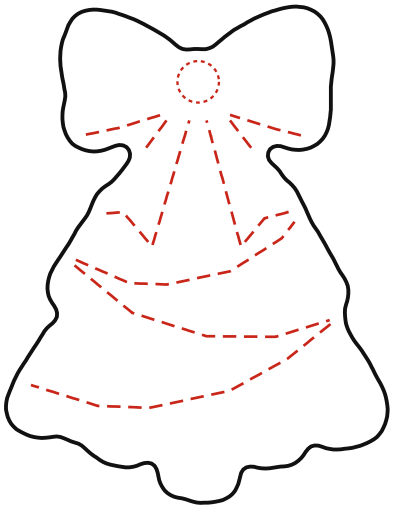
Gold starburst treetop

Gold rays, tiny lights



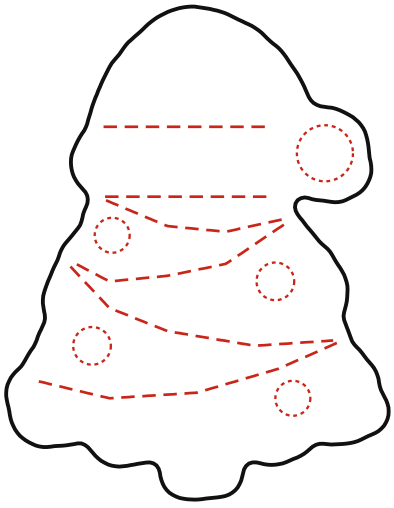
Ribbon and pinecone treetop

Plaid bow, pinecones, holly



Big red bow treetop

Red bow, red garland



Santa hat treetop

Santa hat on the tip

1 inch test bar

Guide key

- Red dashes are icing guides, never cut lines
- Topper edge: where the topper flood stops and the tree begins
- Facets, rays, branches, ribbon tails, collar and hat band
- Swags on the tree: garland, light string or snow line
- Dotted circle: an ornament, a bow knot, a center or the pompom

Cut the tree first, then the topper, and the star points, spire, arm tips and pompom last, then freeze.

Roll an even 1/4 inch. Cut round the paper with a paring knife held straight up. The spire and every snowflake arm are at least 0.40 inch wide, so nothing snaps.
