Finished treehouse

About 6 3/4 in tall to the branch tips, deck 2 3/4 in off the board, trunk 2.5 in square.

The trunk is hollow: stand a paper towel tube cut to 2.5 in inside it. Not edible, so this is a display house.

About 90 square inches of dough: one batch, rolled 1/4 inch thick, with room to spare.

Use a board at least 10 x 10 in so the roots, the ladder and some snow fit.
