FRONT WALL · cut 1 · 5 in wide, 6.48 in to the peak

How it goes together

The two gable walls face front and back. The side walls tuck between them. Two roof panels meet at the ridge. The chimney stands on the right panel. The door is piped on, so only windows glow.

BACK WALL · cut 1 · same outline as the front

Stacking order

1. Four walls on the board. Wait 2 hours.
2. Both roof panels. Prop them and wait 4 hours.
3. Chimney on the right panel. Wait 2 hours.
4. Step, path, garden beds, egg nest and lamp post.

Why a steep roof

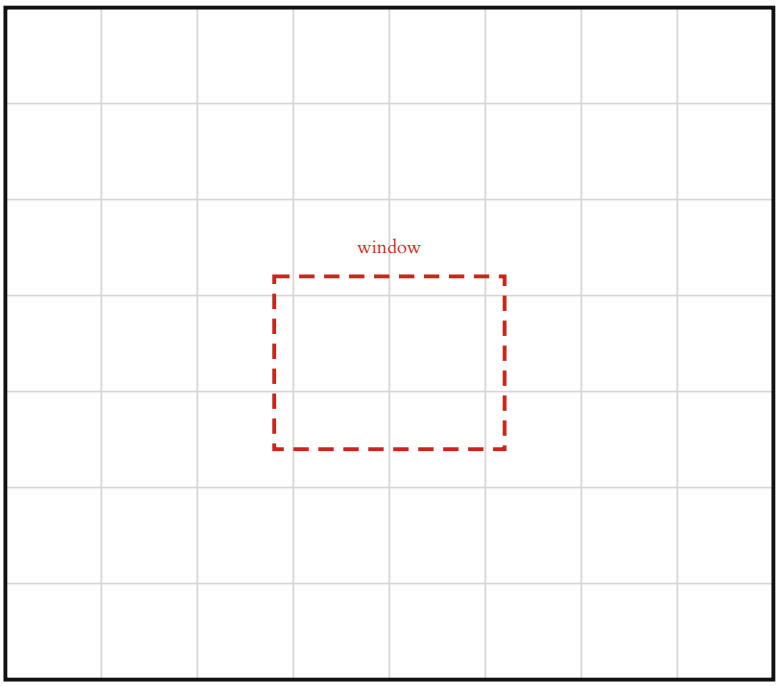

At 50 degrees the roof looks like a storybook cottage. Steep panels want to slide, so prop each one with a can until it sets.

The five ingredient garden

The in-game recipe uses wheat, ginger, sugarcane, vanilla and egg.

Plant a candy version of each one in front of the cottage:

Wheat: pretzel stick sheaves in the back left bed.

Sugarcane: green candy sticks in the front left bed.

Ginger: crystallized ginger chunks in the right bed.

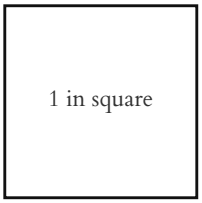

Vanilla: a path of vanilla wafers from the door step.

Egg: three white candy eggs in a toasted coconut nest.

A pretzel rod lamp post with a yellow candy lantern stands by the path.

ROOF PANEL · cut 2

5.5 x 4.4 in

The roof

Flood both panels soft teal while they lie flat, then pipe rows of scallop shingles from the eave edge up, each row lapping the last. Set the left panel first, then the right one, which laps it at the ridge. Each panel overhangs the side walls about 0.39 in and each gable 0.5 in. Cut the chimney mark only into the icing, never into the dough.
