FRONT GABLE · cut 1 · 4.5 in wide, 6.21 in to the peak

How it goes together

The four walls stand on the board. The side walls tuck between the gables. Two roof panels meet at a steep 55 degree ridge. The name arch glues flat round the doorway and the bone sits across the peak.

2.3 x 2.6 in, PLUTO on top

BIG BONE · cut 1

3.2 in long, for the peak

The shingles

Pipe big teardrops in two terracotta shades from the eave up, and flick each tip up and out as you lift off.

The doorway

It stays open. Flood the inside of the back gable dark green, and the tea light glows through it.
