The front wall

Cut the round window out. Do not cut the door. Score its outline lightly, then flood it a deeper pink so it reads as a door.

The side walls tuck behind the front and back walls, so the house is 4 1/2 in wide and 6 in deep.

The back wall

The light doorway is 1 3/4 in wide, so a battery tea light slides in from behind and lights the four peppermint windows and the round one.

Flood this wall pink too, or leave it plain if the back faces a wall.

Battery lights only: never a real candle inside.
