Poinsettia Cookie Template: 4 Shapes

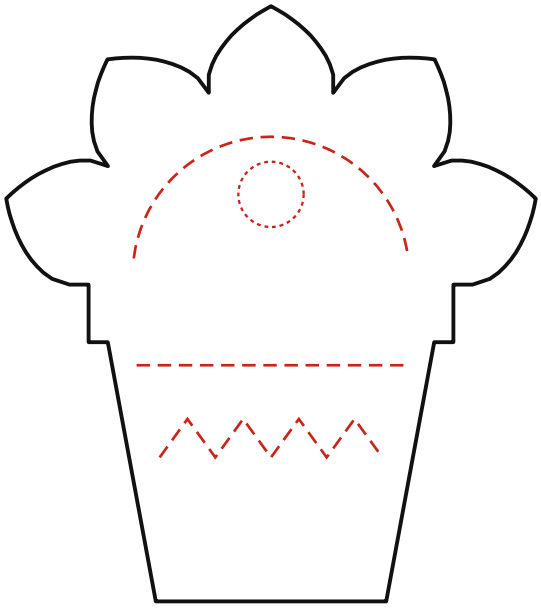

Print at Actual Size or 100 percent and measure the red bar: it must be exactly 1 inch. Cut on the solid lines.

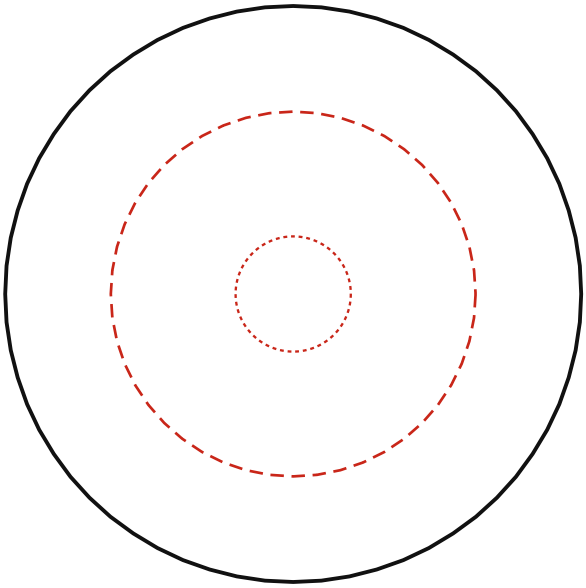

Poinsettia bloom, 3 1/4 in, 6 bracts

Poinsettia wreath, 3 in round, center hole

Potted poinsettia, 3 1/4 in tall

Petal round, 3 in

Guide key

- Red dashes: icing guides, never cut
- Dotted circles: the yellow flower centers and the little wreath blooms
- Bloom: the inner bract layer and a midrib down each outer bract
- Pot: where the bracts meet the leaves, the rim line and the foil folds
- Wreath bow and petal ring: where the bow and the petal tips sit

1 inch test bar

Roll the dough 1/4 inch thick. A 3 inch round cutter does the same job as the paper for the round and the wreath.

Cut the wreath hole with a 1 inch cutter and bake the centers as mini cookies.
