How it goes together

The floor plate sits on the board. The two gable walls stand on its front and back edges. The side walls tuck between them.

Two roof panels meet at the ridge. The Snoopy cookie stands upright in the ridge seam.

The door is marked, not cut: flood it black.

FRONT GABLE WALL · cut 1

4 in wide, 3 in at the eaves, 5.5 in to the peak

Board lines

Pipe dark red lines across every wall and roof piece about every 1/2 inch once the red flood crusts. They turn plain red cookies into painted boards.

Press the door outline in with a toothpick before baking.

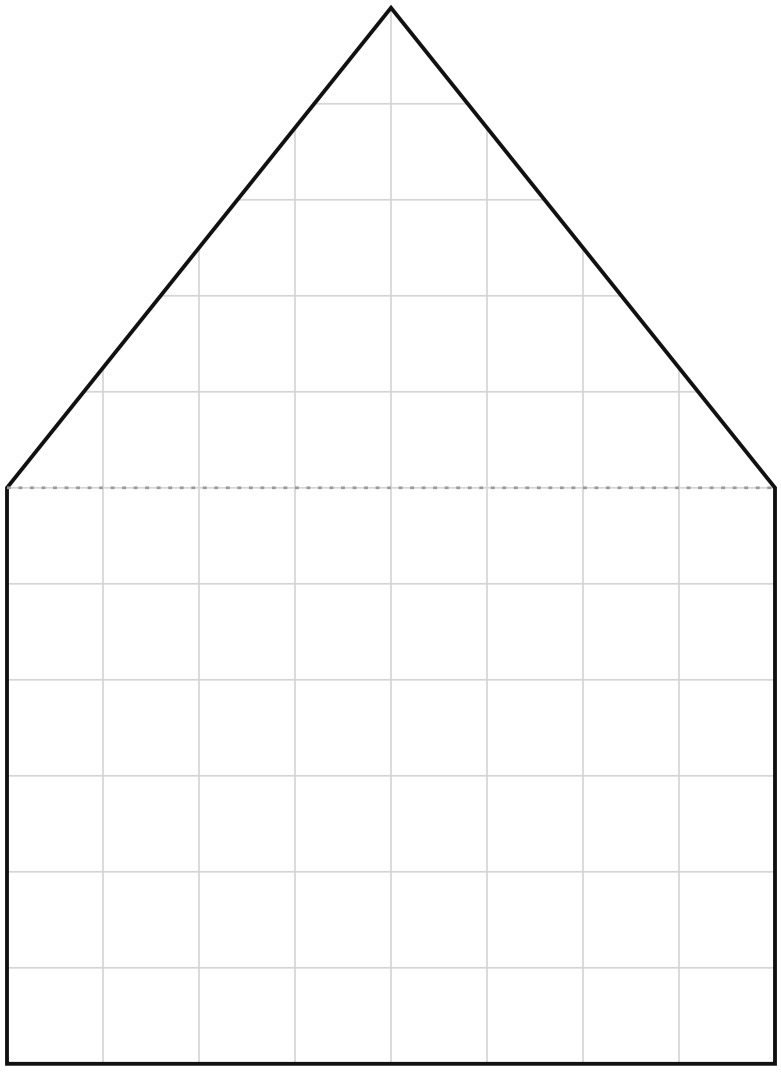

Gable pitch: about 51 degrees.
