Toast Cookie Template: 3 Shapes

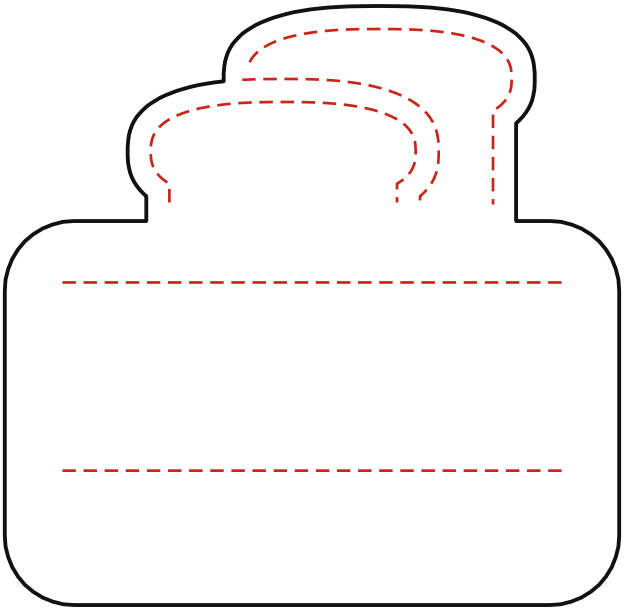

Print at Actual Size or 100 percent and measure the red bar: it must be exactly 1 inch. Cut on the solid lines.

Bread slice, 2 3/4 in

Half slice, cut on the diagonal

Toast in a toaster, 3 1/4 in wide

Guide key

- Red dashes: icing guides, never cut
- Dotted circles: the eyes on the kawaii toast
- Slice: the crust line, the butter pat square and the smile
- Half slice: crust on the two outer sides, none on the cut
- Toaster: the crust on each slice, where they overlap, the slot line and the stripe

1 inch test bar

Roll the dough 1/4 inch thick. Cut the notch where the two toaster slices overlap with the tip of a small knife.

Generic toast drawn for home baking: no brand names, logos or lettering. The bare cookie edge plays the crust.
